

Focal Sopra N°3

Official North American Debut at T.H.E. Show Newport

Irvine CA, June 3, 2016

Sopra is an historic achievement for Focal. Sopra N°1 and N°2 were praised by industry professionals (Sopra N°2 received an EISA award, among others) but music enthusiasts alike.

Today, the story continues. The Sopra line is expanding as we introduce new products.

Sopra N°3 is the largest of the Hi-Fi line, and features all the Sopra innovations (IHL tweeter, TMD surround and NIC magnetic circuit). Dynamic and musical with generous, tight bass, they easily express their potential at any volume.

The Sopra range is complete and coherent: Sopra N°1, bookshelf speakers intended for modest listening rooms; Sopra N°2, compact floor standing speakers for moderate rooms; and finally, Sopra N°3 for large systems!
